<p>Staff, contractors and volunteers – Identify what work activity or situations might cause transmission of the virus and likelihood staff could be exposed</p>	<p>Cleaning surfaces infected by people carrying the virus. Disposing of rubbish containing tissues and cleaning cloths. Deep cleaning premises if someone falls ill with CV-19 on the premises. Occasional Maintenance workers.</p>	<p>Stay at home guidance if unwell at entrance and in each hired room. Staff/volunteers provided with protective overalls and plastic or rubber gloves. Contractors provide their own. Staff/volunteers advised to wash outer clothes after cleaning duties. Staff given PHE guidance and PPE for use in the event deep cleaning is required.</p>	<p>Staff/volunteers may need guidance as to cleaning. For example, cloths should be used on light switches and electrical appliances rather than spray disinfectants, rubberised and glued surfaces can become damaged by use of spray disinfectant too frequently.</p>
<p>Staff, contractors and volunteers– think about who could be at risk and likelihood staff/volunteers could be exposed.</p>	<p>Staff/volunteers who are either extremely vulnerable or over 70. Staff or volunteers carrying out cleaning, caretaking or some internal maintenance tasks could be exposed if a person carrying the virus has entered the premises or falls ill.</p> <p>Mental stress from handling the new situation.</p>	<p>Staff in the vulnerable category are advised not to attend work for the time being. Talk with staff, trustees and volunteers regularly to see if arrangements are working.</p>	<p>Staff and volunteers will need to be warned immediately if someone is tested positive for COVID-19 who has been on the premises. Details of a person’s medical condition must be kept confidential, unless the employee/volunteer agrees it can be shared.</p> <p>It is important people know they can raise concerns.</p>
